Dr. Eman A.M. Al-Jawadi

Part One

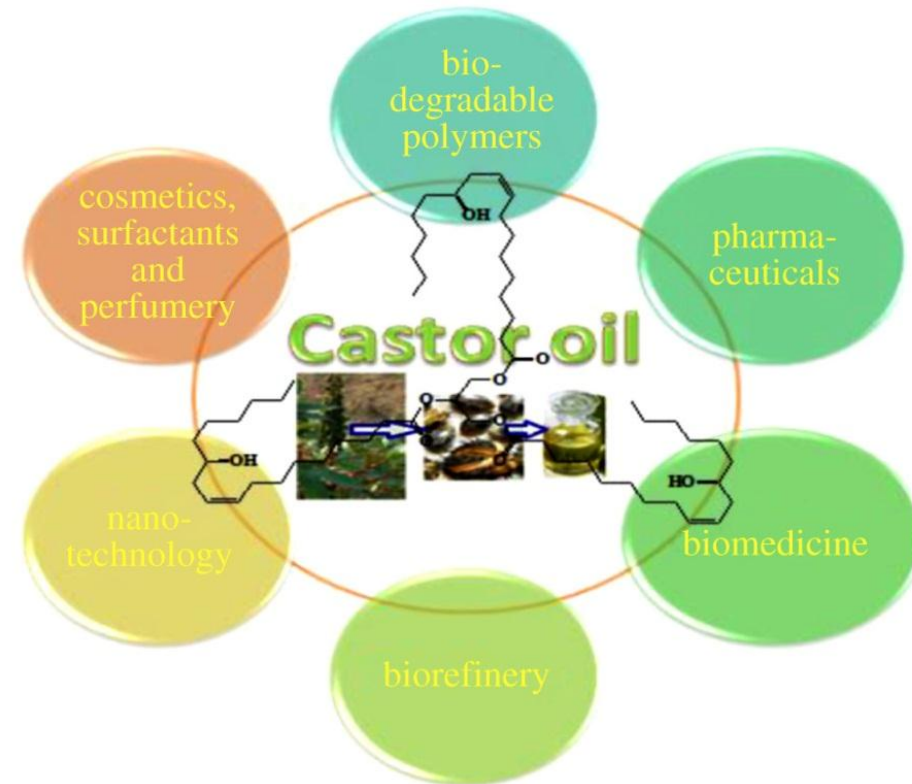

Production (Cultivation
and extraction of oils,
Perfumes, Soap, Paper
bags),

Cultivation

Extraction of oils

What is an essential oil and how is it extracted ?

Perfumes

Using flowers to make perfume

Soap

What do we need to set up a factory

Part
Two

Group
S04

Recycling of waste

What is recycling ?

Recycling is a term used to describe a series of activities that includes collecting recyclable materials that would otherwise be considered waste.

What Can Be Recycled

- Lots of things can be recycled
 - Plastic
 - Glass
 - Paper
 - Aluminum
 - Cardboard
 - Metal
 - And much more

What We Need For Project

Employees

Land for building the factory

Capital

**Protection of
Natural Sources**

Let's protect the nature.
Nature is our friend!

**Reducing the
amount of waste**

**Importance
of Recycling**

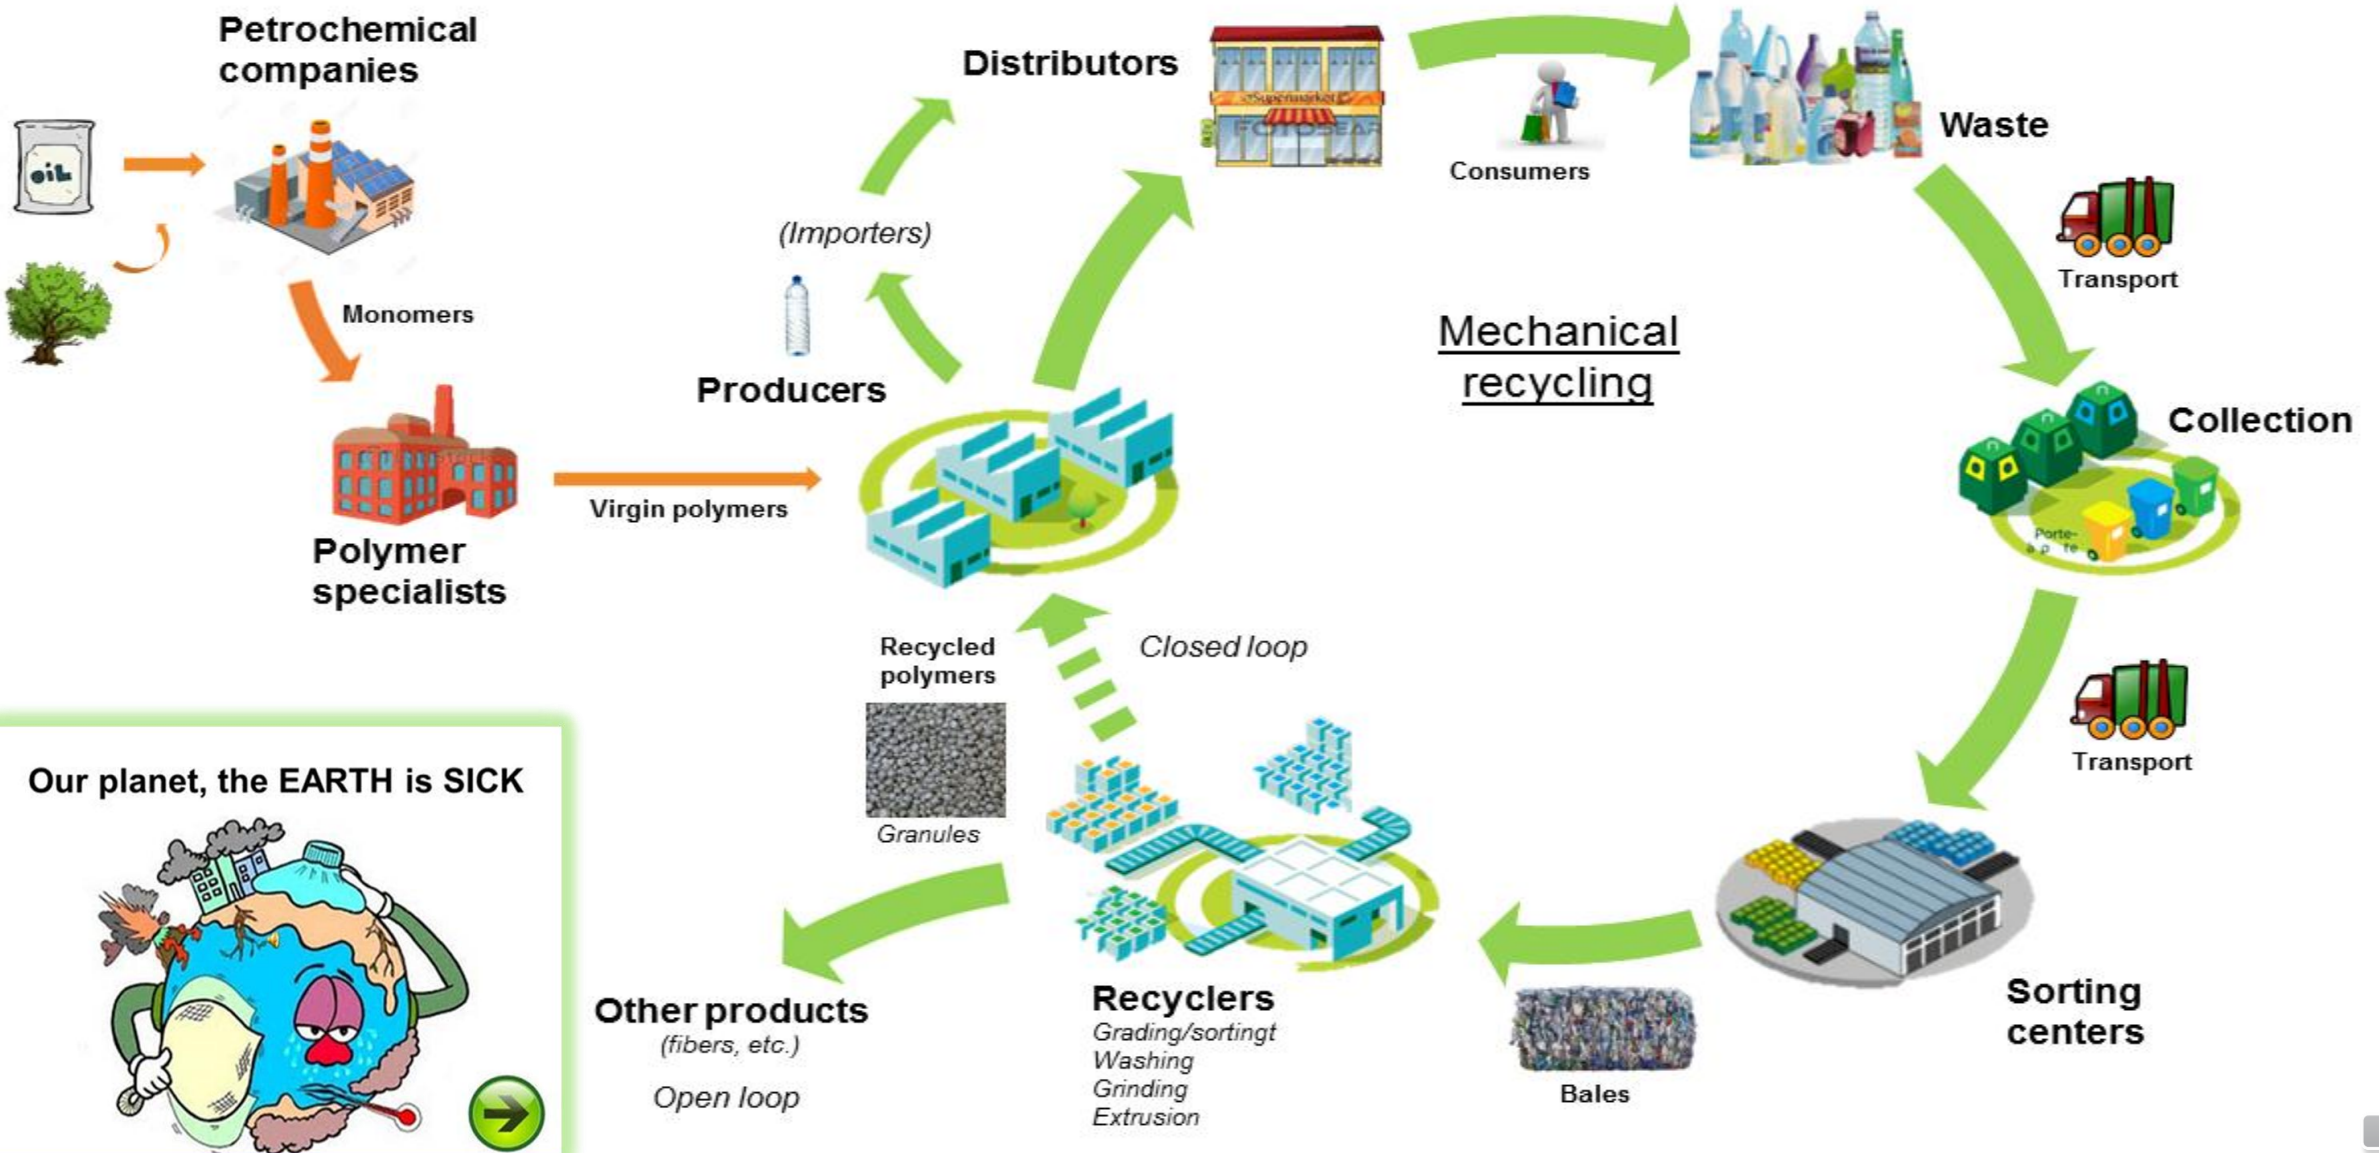

**Investment in the
future and
economic recycling
will provide natural
resources for the
new generation**

**Energy saving
Reducing energy
consumption**

Stages of recycling

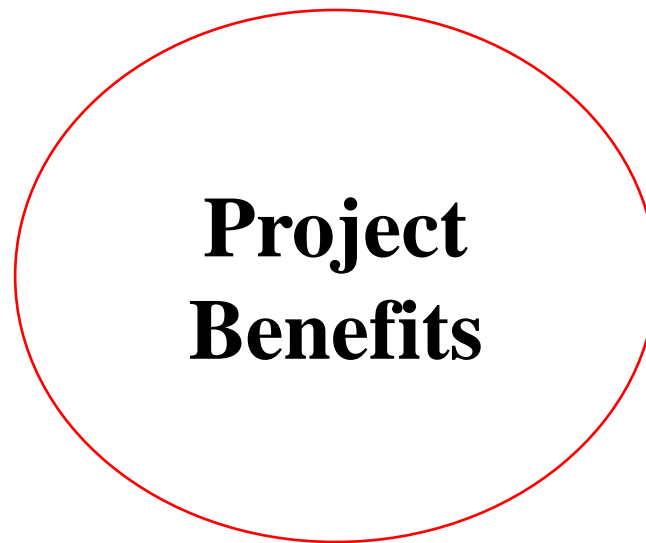

Financial profits

Employing hands and eliminating unemployment

Project Benefits

Providing job opportunities for graduates

Reduce pollution (save the environment)

**Recycling
preserves the
natural resources
in the environment**

Thank you for attention
