

Radiation physics

RESI-TEAM

BY

Arkan Khaled Mahmood

Mohamed Mostafa Hamed

Abbas Abdul Razzaq

Summary

!1- Developing Skill of how to use All Radiation instrument used for physical examination in medicine.

2- continues training on system and radiation machine use .

3- study the limitation and risk of these machine use

4- evaluation and developing all protocol related to radiation treatment

5 evaluation and developing cancer patient treatment

6- Developing a management program for use of Radiation machine

7- training on new radiation instrument
